Al-Hamad Design

Collection I

Introduction

Furniture Is the Servant of Fantasy

Collection I is focused on creating luxury objects that surprise and encourage interaction. Embracing an innovative design theory based on a foundation of new concepts, the furniture utilizes progressive materials and technologies in order to improve and expand the relationship between objects and their users.

Every piece is carefully designed and handcrafted with only the finest materials and workmanship. Each step in the production process is given equal consideration, and the products are meticulously quality-controlled from conception to delivery. Each piece is stamped with a hand cut brass emblem.

Al-Hamad Design also specializes in customized furniture, tailored specifically for the space and wishes of the client. Other services include object design, interiors, dream materialization, creative consultation, and collaborations.

Bird's Eye

Coffee Table

The beauty and anatomy of the thin layer of bird's eye maple are exposed with light, giving this table two personalities. When the light is off, you see the surface of the bird's eye maple; when the light is on, the complex structure of the grain glows like hot lava. A storage compartment is located in the post.

Built-In Lighting

*Model 2

Bright Idea

Arm Chair

Finely carved from solid walnut, this armchair's legs seem to grow out from the floor.

Bright Idea features a leather upholstered push button in the armrest which activates the lightbulb.

Sit in the chair, ponder, and when a bright idea comes to mind, push the button.

A lightbulb literally pops up over your head.

Leather
Light bulb
Leather Upholstered Push Button

Leather from *Moore & Giles*,
Top Grain Hides from New Zealand.

Bulb Box

Table Lamp

Bulb Box is a glass box filled with light bulbs. Only a few of them are on, illuminating through the rest of the bulbs. This allows for beautifully unique shadows.

Whenever one bulb goes out, switch it with another of the many bulbs. The piece and its shadows constantly evolve with use.

Bulb Box also features a remote controlled dimmer.

Available in brass or chrome.

Incandescent Light Bulbs
Remote Control

Chandelier

Chandelier + Throne

Chandelier is a piece that allows the user to act out the fantasy of swinging from a chandelier, comfortably.

This piece hangs from the ceiling and is quite literally a chandelier. However, suspended between the chain and chandelier is a beautifully upholstered throne-like chair.

The feeling of swinging in *Chandelier* is incomparable.

Command Center

Modular Work Desk

Command Center is a multifunctional, modular workspace. The two wings easily move to form a variety of shapes to accommodate the user or users. Seamlessly built in wheels allow the desk to be transformed and moved almost effortlessly. Different shapes can allow for multiple users, conference settings, or even a 10-person dining table. The center console features a lightcounter. There are drawers on both sides of the wings to complement its versatility. The three pieces can be unhinged to be used separately as well.

Wood
Lucite Counter Top

Cradle

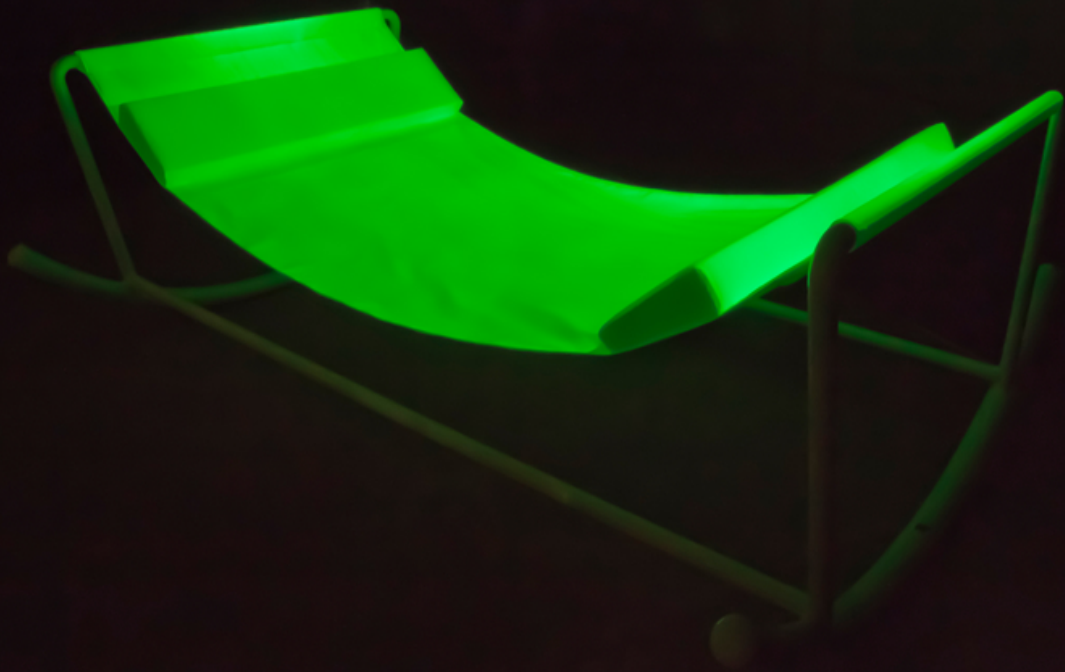

Hammock

Cradle is a two-person glow-in-the-dark hammock that reproduces the rocking motion of a baby's cradle. Upholstered in a heavy duty, waterproof, glow-in-the-dark material, this piece is meant for an outdoor setting. By the pool or in the garden, *Cradle* will charge in the sunlight during the day, and glow through the night, giving the illusion of a floating hammock.

Embarakiya

Floor Lamp

Embarakiya are human floor lamps dressed in traditional Kuwaiti wardrobe. The lamp shades are upholstered in the actual fabric of the headdress.

Each of the lamps features a touch sensor in the hand with three dimmer settings.

Shake hands and the lamp will turn on.

The men include a built-in speaker in the torso.

Touch Sensor Lighting
Built-In Speaker

Gibbous

Garden Chair + Ottoman

Gibbous is a glow-in-the-dark easy chair and ottoman. One quarter of the sphere pulls out to expose the chair, and the quarter slice becomes an ottoman. Upholstered in a heavy duty, waterproof, glow-in-the-dark material, this piece is meant for an outdoor setting. By the pool or in the garden, *Gibbous* will charge in the sunlight during the day, and become a glowing orb at night.

Little Oyster

Club Chair or Side Table

Little Oyster is a side table that opens up into a club chair. Simply pull up the back and sit. The chair features a secret compartment below the bottom cushion, and built-in lighting.

Zebra Wood
Leather
Built-In Lighting

Leather from Moore & Giles.
Produced from English Bull Hides, tanned in Italy.

Metropolis

Easy Chair

Metropolis is a concrete casted easy chair upholstered in fine leather. The recessed cushions and supple leather provide a comfortable lounge against the cold marbled stone.

The legs are steel chrome.

Metropolis comes in a headrest and an armrest model.

Man-Made Stone
Leather
Steel Chrome

Leather from Moore & Giles.
Korean hides, developed to reproduce
the softness of lambskin.

Parallel Angles

Side Stacking Chairs

Parallel Angles are a pair of chairs with parallel diagonal legs that create the illusion of falling. The chairs side stack into each other. They are perfectly stable.

Wood
Ceramic Coating

Q8

Mirror

Q8 is a glass mirror in the shape of Kuwait.
The islands are separately floating where they would in the Gulf.
